INTRODUCTION

The Council of Scientific & Industrial Research is engaged in a wide spectrum of activities ranging from scientific and industrial research to technical publications and dissemination of scientific information. Thus data on utilisation of results of research presented in the following pages represents only a part of the total spectrum of the CSIR activities.

Recently, we have introduced a computer oriented information system and the research utilisation data has been based on it. The exercise of computerising the compilation was taken up to enable us to keep up the schedule for bringing out the publication annually and in time. The presentation has been divided into 11 sections each reflecting the work done in particular field of activity.

This compilation is mainly the result of untiring efforts of Smt. S. Ramachandran and Shri V. Govindarajulu sustained by timely advice of Shri D. Bhushan. Thanks are also due to our colleagues at INSDOC particularly, Shri A.M. Arora for undertaking computerisation of the data. This publication would not have been possible but for the unstinted cooperation of Directors and Information Scientists of the National Laboratories and the NRDC. We are thankful to Prof. Y. Nayudamma, erstwhile Director General, CSIR, for his continuous encouragement and support in this project.

While we are conscious of the limitations imposed by the effort to bring out this data in time, we shall appreciate suggestions in making this compilation more useful to the readers.

RESEARCH UTILISATION DATA (1976-77)

AT A GLANCE

1.	No. of processes in production as on 1.4.1977:		
	(a) Released through NRDC and commercialised by the industry	...	289
	(b) Departmental production in the laboratories	...	38
2.	No. of processes released to the industry through NRDC, awaiting production as on 1.4.1977	...	275
3.	No. of processes released to the industry directly by the laboratories as on 1.4.1977:		
	(a) Total No. released as technical aid and as sponsored research schemes	...	536
	(b) No. reported to be in production	...	177
4.	No. of processes released free of charge to the industry by the laboratories during 1976-77	...	72
5.	No. of processes developed by the laboratories during 1976-77 and are available for commercial exploitation either direct from the laboratories or through NRDC	...	92
6.	Sponsored research schemes undertaken by the laboratories during 1976-77:		
	(a) Total No. of schemes*	...	400
	(b) Estimated cost (Rs. lakhs)*		445.881
7.	Consultancy services rendered (including free service) to the industry by the laboratories during 1976-77:		
	(a) Total No. *	...	270
	(b) Estimated cost (Rs. lakh)*		28.462
8.	Project reports/feasibility reports supplied (including free supply) by the laboratories to the industries during 1976-77:		
	(a) Total No. of reports	...	85
	(b) Estimated cost (Rs. lakh)*	...	9.574

9.	No. of pilot plants/projects in operation in the laboratories during 1976-77	...	37
10.	Analysis, testing, enquiry, demonstration, repair and other extension services rendered (including free service) to the industry by the laboratories during 1976-77:		
	(a) No. of samples analysed and tested**		24928
	(b) No. of enquiries attended**		27679
	(c) No. of nontechnical notes supplied**		4928
	(d) No. of demonstrations extension work and other technical services rendered**		1582
	(e) Amount earned for analysis, testing, and other technical services (Rs. lakhs)**		15.805
11.	Patents applied, accepted and sealed in India and abroad by the laboratories during 1976-77		
	(a) No. Filed	128	
	(b) No. Accepted	110	
	(c) No. Sealed	113
